MEMORANDUM FOR : Director of Security

SUBJECT : Project AQUATONE  
(Office of Security support)

Recently, it was brought to my attention by the Project AQUATONE Staff that your Office has initiated four thousand, six hundred eleven clearance cases of various types since this Project has been in existence. Of these, I understand four thousand eight have been completed. In addition, the four hundred fifty-two support cases your Office has completed have materially facilitated the accomplishment of our program.

Although the AQUATONE mission and resulting requirements are far from completed, I would like to express my sincere appreciation for your continuing support and suggest that the same be passed to appropriate components of your Office. Your accomplishments have demonstrated a major team effort.

(S) Richard M. Bissell, Jr.

RICHARD M. BISSELL  
Project Director/AQUATONE
